

We are an international software company, and our mission is to make manufacturing more intelligent, more efficient, and more flexible. Our 50 professionals in Germany, India and China are dedicated to developing new technologies, and to making the smart factory vision a reality.

As a subsidiary of Eisenmann SE, we can draw on over 25 years' experience in the development and implementation of pioneering software solutions. As a team, we value working together closely and constructively to find novel solutions.

Join our team, and help shape the future as a

JAVA SOFTWARE DEVELOPER, WITH A FOCUS ON WEB FRONT-ENDS

at our facility in Boeblingen, Germany.

Your role:

- To compile requirements analyses and develop corresponding solutions,
- To develop new, innovative web applications in the Java Enterprise environment, and expand their functionality,
- To create interfaces for applications and processes, and perform the corresponding integration tasks.

Your profile:

- You have a degree in IT or equivalent qualifications ,
- You have in-depth knowledge of Java, Java Enterprise, JavaScript and web technologies (HTML, CSS, AJAX, XML, JSON),
- You are familiar with a current web framework (e.g. GWT, SmartGWT, Vaadin),
- You have experience with popular development tools and testing frameworks,
- You are familiar with databases and security standards,
- You are flexible and welcome new challenges,
- You want to take part in agile software development as part of a dynamic start-up.

Your application:
